SUMMARY

Frontend Engineer with 5+ years of experience building scalable web and mobile applications using React, Next.js, TypeScript, and React Native. Proven expertise in developing high-performance user interfaces for fintech, insurance, and enterprise platforms.

Experienced in AI-augmented software development, leveraging modern AI tools to accelerate development, improve code quality, automate testing, and enhance developer productivity.

performance optimization, scalable UI systems, and cross-platform mobile development.

SKILLS

- **Programming:** JavaScript (ES6+), TypeScript, HTML5, CSS3
- **Frameworks & Libraries:** React.js, Next.js ,React Native ,Redux / Context API ,Zustand
- **Styling:** TailwindCSS ,Chakra UI
- **Testing:** Jest, Cypress ,React Testing Library
- **Architecture:** Micro-frontends ,Component-driven development ,Responsive design systems ,REST API integrations
- **AI-Assisted Development Tools:** GitHub Copilot , ChatGPT / OpenAI, Antigravity
- **Developer Tools:** Git ,Vite / Webpack ,Babel ,npm / pnpm / Yarn ,Figma ,Jira , Chrome DevTools

PROFESSIONAL EXPERIENCE

Frontend Engineer , Casava Microinsurance Limited

June 2025 - Present

Lead development of customer-facing digital insurance platforms, delivering intuitive and secure interfaces used by policyholders across multiple insurance products.

- Developed responsive dashboards enabling customers to view policy details, download documents, track premium payments, and manage personal data.
- Architected scalable frontend systems using React, TypeScript, and modular UI patterns.
- Integrated secure APIs for policy management and financial transactions.
- Utilized AI development tools such as GitHub Copilot and ChatGPT to accelerate development cycles and improve code reliability.
- Collaborated with backend engineers, designers, and product teams to ship new features rapidly.

Frontend Engineer , Hoops Technologies**Nov 2024 - August 2025**

Built high-performance campaign and reward management platforms used for interactive marketing campaigns.

- Engineered a dynamic reward wheel creation and management dashboard allowing marketers to configure reward campaigns.
- Implemented advanced UI state management using React and TypeScript.
- Optimized application performance, achieving 40% faster page load times.
- Integrated analytics and campaign configuration tools.
- Leveraged AI-assisted coding tools to accelerate UI component generation and improve developer productivity.

Frontend Engineer, Revent Technologies**Oct 2022 - Aug 2023**

Worked on the development of a core banking solution serving financial institutions.

- Developed complex financial dashboards and banking interfaces using React and TypeScript.
- Implemented micro-frontend architecture, improving modularity and independent deployments.
- Built comprehensive testing suites using Jest and React Testing Library, improving system reliability.
- Collaborated closely with backend engineers to integrate banking APIs and financial data systems.
-

Frontend Engineer, ALML GROUP**Nov 2020 - Jan 2025**

Developed and maintained enterprise web applications supporting internal operational systems.

- Developed and maintained responsive web applications using React and Redux, contributing to the development of key features.
- Implemented multiple RESTful API integrations to support internal operational workflows.
- Contributed to code reviews, providing constructive feedback and ensuring adherence to coding standards.
- Resolved cross-browser compatibility issues and improved UI consistency.

MOBILE DEVELOPMENT EXPERIENCE

React Native Developer

Developed cross-platform mobile applications using React Native, delivering consistent mobile experiences for both iOS and Android.

- Building reusable mobile UI components
- Integrating REST APIs into mobile apps
- Managing mobile state with Redux/Zustand
- Implementing authentication and secure storage
- Optimizing mobile performance and responsiveness

EDUCATION

Master in Information Technology
University of Lagos

October 2019 - Jan 2024

Bachelor of Science in Computer Science
Redeemers University

Sep 2013 - May 2017
